

# What training and certification do I need for agrichemical use?

NOTE: 'Certified Handler' is a HSWA requirement. 'Qualified Person' is an EPA requirement.

DISCLAIMER: This diagram summarises the regulatory environment. For full details visit [www.growsafe.co.nz](http://www.growsafe.co.nz) or refer to WorkSafe and EPA guidance. Additional requirements apply for aquatic and contract spraying. EPA may impose training or certification requirements for other agrichemicals as part of the product registration process.
